(U) Adjusting the Font Size for Your Web Browser

FROM: SIGINT Communications
Unknown
Run Dates: 11/25/2003 , 11/26/2003 , 11/27/2003

(U) Some readers have commented that they would prefer a different font size for the articles that appear in SIDtoday. Did you know that you can set the font size to whatever level is best for you? Here's how:

(U) **In Netscape:**

- 1) Go to the "Edit" menu and select "Preferences"
- 2) In the "Category" box, select "Appearance--> Fonts"
- 3) The coding for the SIDtoday page is "Variable Width Font"; select the size that you prefer
- 4) Then click on the option that says "Use my default fonts, overriding document-specified fonts"
- 5) Click on "OK"... and you are done!

(U) If you wish to revert to the document-specified fonts, at step 4, click on "Use document-specified fonts, including dynamic fonts" option, and click "OK".

(U) **In Explorer:**

- 1) Go to the "View" menu
- 2) Select the "Text Size" option and choose the size (the options are larger, largest, smaller, smallest) that you prefer

(U) Done!

"(U//FOUO) SIDtoday articles may not be republished or reposted outside NSANet without the consent of S0121 (DL sid_comms)."
