

(U//FOUO) CBRN Weapons: Repeat Brown Bag Session

FROM: [REDACTED]
Operation SIGINT
Run Date: 03/24/2006

(S//SI) Did you miss the last CBRN Brown Bag Session? Never fear, there's a repeat session planned for 30 March!

Date: **30 March** 2006 (Thursday)

Time: **1200 to 1300**

Room: **OPS1, 2W037-2**

Registration instructions follow. Here's a description of the session:

(S//SI) One of the highest priority concerns facing the United States and its allies today is the threat of terrorists acquiring and using **chemical, biological, radiological or nuclear (CBRN) weapons**, either at home or abroad.

(S//SI) SIGINT needs to provide the *earliest* possible actionable warning information to enable the US and allied governments to deny terrorists the capability to acquire, or opportunities to use, CBRN weapons. In order for SIGINT to be successful in this mission, *everyone* in the SIGINT production chain needs to be aware of how their target information could potentially contribute to this critical mission.

(S//SI) This seminar offering will provide participants with a basic understanding of what CBRN is, the threat and challenges we face, and what their potential role is in helping SIGINT respond to this threat.

(U//FOUO) **Registration:** If you are interested in attending this session, please send your full name, organization, and SSN to [REDACTED].

(U//FOUO) Note: This session will be videotaped and posted to the "go CBRN" webpage. If you have any questions, please contact [REDACTED] or [REDACTED].
