

**(S//REL) New TechSIGINT Desk Stands Up in NSOC**

FROM: [REDACTED]  
Weapons & Space Staff (S2J09)  
Run Date: 04/19/2006

(S//REL) On 31 March 2006, a new NSOC desk stood up: the **TechSIGINT Senior Coordinator (TSSC)**. TechSIGINT is multi-disciplined and includes:

- ELINT (operational and technical -- maritime, land and air),
- Specific Emitter Identification (SEI),
- Foreign Instrument Signals (FIS),
- PROFORMA, and
- RF Communications Externals.

The TSSC represents these disciplines, and acts as a liaison for the Defense Special Missile and Aerospace Center (DEFSMAC) with NSOC.

(S//REL) The TSSC frequently performs near real-time analysis of global events from a TechSIGINT perspective, gathering support from the multi-disciplined TechSIGINT sources. They also serve as a focal point for TechSIGINT RFIs (Requests for Information), AMPs (amplifications), INs (Information Needs), and general questions, and works with NSA/CSS Colorado's Technical SIGINT Operations (CTOPS) desk.

(U//FOUO) They can be contacted at [REDACTED] or DL DSTSSC for the NT users. The TSSC Watch manager is [REDACTED] at [REDACTED] or [REDACTED].
