(U//FOUO) *Untangling the Web: An Introduction to Internet Research* by Robyn Winder of the Center for Digital Content (CDC) is both a resource for using, and a window to, the Internet. This book will be of great help to you in your forays into the always interesting yet often confusing world of the Web. The book is written as a basic introduction for intelligence professionals on how to use the Internet better, faster, and more effectively.

(U//FOUO) Copies of the 2006 edition in hardcopy or on CD are free for the asking at both the Main and the R&E Libraries. Please note that this product is "For Official Use Only" and is not approved for public release.
