(U//FOUO) SIGINT Development Strategy and Governance (SSG) is pleased to announce another brown bag discussion focused on SIGINT Development topics of interest. We believe these sessions will be of interest to those who are working in SIGINT Development, or who are interested in learning more about NSA's SIGINT Development activities. A brief abstract of the planned presentation is below:

Topic:
(U//FOUO) Understanding current technology usage and future trends requires a blending of SIGINT and OSINT. SIGINT provides evidence of current technology usage, while OSINT offers both current statistics and future trends. As you'll see from the presentation, adding the OSINT perspective to SIGINT awareness offers insight into how everything fits into the grand scheme. Please plan on attending to learn more.

(U//FOUO) This brown bag session is classified TOP SECRET//COMINT//X1.
