Chief, Strategic Intelligence Issues (S17)  
Run Date: 07/11/2006

**What:** SINIO Seminar

**When:** Wednesday, 19 July from 1130 to 1300

**Where:** Ops 1, room 2N044

Advance registration is required. See below for instructions.

(S) The SINIO Council and the National Cryptologic School are pleased to present the 8th in a series of Strategic Intelligence Issue Seminars for the Summer 2006. "*Globalization of Intelligence: The Flattening of the Intelligence Playing Field*" will be presented by the SINIO for Counterintelligence and Denial & Deception, Ms. [REDACTED].

**Course Overview:**

(S) Borrowing a concept expounded by Thomas Friedman in his book "The World is Flat," this seminar will look at three forces that are changing the intelligence environment and leveling the playing field. Everyone has or is getting access to a "Dick Tracey decoder ring," so the question arises as to how the U.S. Intelligence Community can achieve and maintain the intelligence advantage over this playing field. This seminar will identify the three forces and their impact on the SIGINT Community.

(U//FOUO) **To register**, and for further info on this series of seminars, please consult the [SINIO Brown Bag Seminars Website](#). Any questions or concerns regarding registration should be directed to the NCS.
