(S) The SINIO Council and the National Cryptologic School are pleased to present the 12th in a series of Strategic Intelligence Issue Seminars for the Summer 2006. " *Homeland Security* " will be presented by Mr. [REDACTED], D/SINIO for Transnational Threats.

Course Overview:

(U//FOUO) There is perhaps no greater mission at NSA than supporting the multitude of homeland security issues and requirements. The SINIO for Transnational Threats (TNT), as part of the SINIO summer seminar series, will host an information-packed session that will keep the workforce abreast of how SID supports the Department of Homeland Security (DHS) as a customer and how we address various homeland security issues.

(U//FOUO) Scheduled speakers for this event include the National Cryptologic Representative (NCR) to DHS and members of his staff, the DHS Account Manager, and S2's first Homeland Security Coordinator. Please join us for what promises to be an entertaining and informative session.

(U//FOUO) **To register**, and for further info on this series of seminars, please consult the [SINIO Brown Bag Seminars Website](#). Any questions or concerns regarding registration should be directed to the NCS.
