(U//FOUO) The Content Preparation Environment (CPE) is scheduled to begin replacing SIGINT On Demand (SOD) over a 7-week period starting the week of 2 October. While we have disseminated the CPE rollout and training schedules via email and *SID today*, the most up-to-date and accurate version will always reside on the [CPE web page](#) ("go cpe"). Because these schedules may still fluctuate somewhat, we recommend that all potential CPE users refer to the web page in order to stay abreast of any last-minute changes to the rollout and training schedules.
