

06-18-2018 - AAR leadership info from anon Aville contact

here is my half ass profile of these people. white, twenty something, wealthy background, hangs out at the odditorium, firestorm, double crown, lazy diamond, works at izzy coffee shop or rosettas kitchen. also harvest records or static age records or the mothlight. that is their world

So this is Mary Beth. She oversees the cafe at Firestorm Books in Asheville NC. She runs Asheville Antifa and Asheville Anti Racist Action. Firestorm is a left wing bookstore that is also a cover for these groups. Her full name is possibly Mary Elizabeth Shrom

She is on the right in this photo. Notice the sign with Firestorm and Asheville Anti Racism. Also the Antifa flag on the table.

This is her Asheville Anti Racism blog and twitter. She uses it to dox,harass, and threaten people. She thinks she has the power to run people out of town.

She helps throw an Anarchist book fair with Firestorm called A.C.A.B. It stands for Another Carolina Anarchist Bookfair, but really means All Cops Are Bastards. On their Instagram page they brag about vandalizing businesses and police buildings.

This book fair is really a front to bring radical left wing groups from the region together.

Interesting books they sell. Why would they do that? Raises some red flags. hahaha

They also offer weapons training.

Here is an interview she did. She refuses to give her last name. We wonder why?

She got a degree in Environmental Studies at UNC Asheville. [[source bookstore review](#)]

She and the rest of Asheville Antifa sure like to play kickball. As the leader she is always in the front of photos. Why would some players cover their faces? What do they have to hide?

please research kim rooney. she was an asheville city council candidate. she owns the mothlight. its where they have there book fair. i saw her at a restaurant with some antifa folks

all there social media looks the same. you see all these different groups but i have a feeling only a few people are putting stuff up. the same flyers at the same time.

the funny thing is i could literally kick the shit out of all of them. i have seen a bunch of them. weak as fuck. but how can you protect your car or house in the night cowards

From the contact:

if they would have kept to themselves and not doxxed people, vandalized stuff, slashed tires, hurt people or shut down free speech i would not care about them. this is also a phase for some but needs to be checked. do what you have to do. the court of public opinion is stronger than anything in this day and age. their arrogance and hypocrisy is what bothers me the most. also they have no respect for america and its constitution. i will keep working. these are the folks who would throw people in a mass grave if given the chance.

i have also been talking with other old folks from this town. they are sick that these people have moved to this town and demanded changes. they have brought violence and fear. when you cant put a conservative sticker or sign on your private property you are violating someones civil rights! they have become what they hate. the trannie klan. once again your work will help more people than you realize.
